Once in a while the wind carries the smell of the local dairy (several properties to the west) to this property. 244  
*Seller is licensed RE broker in WA.* 245  
 During our brief ownership, the following systems or structures were replaced or added; New comp roof with gutters, heat tape and downspouts. New pressurized septic system. Electrical panel was replaced with two new panels - permit was issued for that installation, all switches, outlets, and light fixtures replaced, three bath fans and kitchen vent fan were added. Active radon system was installed, fan runs 24/7 (see explanation on attached pages). New appliances installed. New heat and cool system installed. Kitchen remodeled. Primary suite bath added. Basement finished, insulated, bath added, egress windows added. All plumbing pipes and fixtures replaced in whole house, and new hotwater tank. New water line and frost-free spigots added at barn and to orchard. All doors and windows replaced except front living room and garage window. Slab in garage and parking apron was removed and replaced with new concrete, new rollup door and opener. Well was recently treated with CO2 (liquid Carbon Dioxide) to clean scale and iron bacteria. Well logs provided may or may not be accurate. Water Recovery Services put a camera down and says well is 200ft deep. Water flow was tested at 8 gpm prior to seller purchase. After CO2 treatment, flow tested at about 12 gpm. Buyer should install a water treatment system to remove iron from the household water. Iron is common to the wells in the area. See attached explanation of basement leaks. Easement on north 30 ft also benefits this property - allows access from Fern Lane. 250-256
