Wood stove was previously to the immediate right when entering the house. Insulation torn and needs repairs. Porch roof has been repaired, window to the left of the front door had an AC unit previously. Window has been put back in but needs to be sealed. First floor was cleaned and sealed before new OSB subfloor was laid. During vacancy, pack rats were in the house. During cleaning of the house, droppings were present, but no pack rats were found. Kitchen previously had a gas stove and oven and decent sized fridge.

Sewer: House previously had an outhouse. Outhouse was replaced by a composting toilet that was in the small room on the porch. Water dispenser and bowl were the sink setup. Kitchen sink doesn't have water hookup, but the sink does have a working grey water drain. The drain feeds out into the front of the house and was used for watering flowers and other vegetation.

Water supply: The well provides water year-round, but it would be better with a heated pump house for winter. Electricity would need to be run to pump house for a heated pump. Plenty of water for the house, but if you want to water the garden, then water should be rationed a bit. Water never ran out, but during the summer water was rationed a bit to water the garden. Garden would be irrigated for 1-2 hours then shut off for a few hours to refill. The water would refill completely in a few hours. Water was usually used earlier in the day and again in the evenings. Water was brought to the house using jugs that were filled at a standpipe by the shed that is closest to the entrance of the driveway with the hazelnut tree. The distance from there to the front of the house is about 100 feet.

Electricity: House has working electricity that is currently turned on, and all outlets work. Kitchen is shut off though. Larger fuse box needs to be put in. Currently has 20 amp but needs 30 amp. House previously had landline and internet service.

Exterior sheds: Open shed closest to the house was used for storing firewood. Second open shed from house (same size as firewood shed) was used for storing winter gear like snowmobiles, snowblower, shovels. Shed with lattice is 8' x 8' and was built to be used as a summer kitchen for canning. Large shed by entrance of driveway was used as a tool shed. Chicken coop was attached to shed, and garden was to the left of shed going down towards the power box and the well.

Vegetation: Hazelnut tree is in front of shed closest to driveway entrance. Lots of raspberry bushes by chicken coop. Himrod grapes and two types of concord grapes are growing in front of the house. Sarviseberry bushes (edible but planted for the deer) are closer to the house and to the left of the front porch. Garden in front of house has two types of mint and wild horseradish growing.
